

Inclusiveness Target Countries Conference Grant

The COST Action Justice360 hereby invites applications for Inclusiveness Target Countries (ICT) Conference Grants. Inclusiveness Target Countries Conference Grants allow Early Career Investigators to participate in conferences to present research related to a specific COST Action, in this case to Justice360. To make sure presentations relate to the focus of Justice360, please consult the Memorandum of Understanding (MoU) found here: <https://justice-360.com/wp-content/uploads/2019/12/MoU-CA18228.pdf>. The conference or workshop in question does not have to be organized by the relevant COST Action.

Justice360 offers two ICT Conference Grants for conferences that take place before the end of September 2023 so that the activity can be accounted for before the end of October of this year. Each ITC Conference Grant has a maximum award of 2200 euro. To be eligible for a Conference Grant, applications have to live up to the criteria below.

To apply, please fill in the ICT Conference Grants template and upload it in the eCOST system:
